Fay & Humphrey's Muse.

Though not yet the smoke of battle
Clears along our Southern sky;
Though the cannon thunders rattle,
And the lightnings flash on high!
And though still our dauntless legions
March to conquer or to die;

Yet for those who stay behind them,
(Ready when their turns shall come,
To oppose, where'er they find them,
All the foe's of Freedom's home;)
Every common need of mortals
Must as ever be supplied—
CLOTHING must be had to shelter
From chill blasts or hot noontide.

Care to please you unabating,
With their olden sign unfurled,
Fay & Humphrey still are waiting,
To supply a coatless world.
Men and boys, whate'er your nation,
Size, complexion, taste, may be,
Come, from every rank and station,
Just YOUR STYLE you quick shall see!
Suits, for Spring and Summer wearing,
Ready-Made, shall please your eye—
You that were just now despairing,
Come to the "PEOPLE'S EXCHANGE" and buy.

Or if still you're not assented,
CUSTOM CLOTHS await your choice,
Every style is represented—
Look! and let your hearts rejoice.
You are pleased? This way—allow me—
Walk up stairs, and in a trice,
They will measure you for what shall
Make you look so very nice,
That your very wife won't know you
Till you've spoken to her twice.

Pause a moment in departing—
Downward glance with questioning air—
Pardon! but that boot *is* starting—
Just select another pair
In too varied forms to mention,
Ranged along the groaning shelves—
BOOTS and **SHOES** now claim attention—
Let them answer for themselves.
Ladies, by sad visions haunted,
Of a bootless search for boots,
Here, at last, may stand enchanted:
We've *your* style, at least, that suits
Everybody, maid or matron,
Howsoe'er her choice may fall
Upon shoe, or graceful slipper,
Congress boot, or balmoral.

HATS and **CAPS** of faultless fashion,
You shall see before you go—
Try that Burnside, That's becoming!
Or this, named for "Fighting Joe."
"Fighting Joe" who leads our armies,
And will lead *them through*, you know.

Shirts, and **Hose, and Ties, and Collars,
Gloves**, in our back kid to white kid;
Rubber Goods for stormy weather,

California Correspondence.

VISALIA, Cal., May, 3d, 1863.

Editors Crescent:—I have not as yet been able fully to realize the fact, that California less than twenty years ago was but a poor province of Mexico, inhabited by a few Rancheros, and Missionary Priests. The large cities teeming with life, the railroads, the orchards and broad fields of waving grain, and the thousand and one evidences of material wealth which attract a stranger's attention on every side, are apparently the results of at least a decade of patient industry; and with any other than the American people, such would be the case, but here, as elsewhere, wherever the universal Yankee nation has obtained a lodgement, the country, as if touched by a magician's wand, springs at once from a wilderness into a great State.

I am much pleased with the devoted loyalty of a large majority of the people. The exhibition of feeling reminds me of the sentiment that pervaded the Northern States immediately after the assumption of hostilities by the South. "Sustain the Government at every hazard, and under all circumstances," is the war cry of California. Yet I find many thoughtful men, who express much anxiety as to the future. They have a degree of confidence in the President and his constitutional advisers, but are fearful that if Gen. Hooker should sustain a reverse, that the radicals will bring such influences to bear on them as will lead to the appointment of Gen. Fremont to the command of our army, in which event it is feared that there will be such a change of feeling here, that designing men will embrace the opportunity to declare a Pacific Republic, and be sustained by the people in so doing. You cannot fully appreciate the sentiments of Californians in reference to Gen. Fremont. Before I left Wisconsin I fully believed him to be a great General, and a much abused man, but here no one has any respect for him. None appear to doubt his loyalty, but all speak of his capacity with contempt, and express surprise and regret that the President should have appointed him to any command higher than a captaincy, and I must confess that my own views have undergone a radical change in regard to him when I find the people of his own State, and those intimately acquainted with him, have so little confidence in his ability.

Gen. McClellan stands very high in the estimation of the people. They look upon his misfortunes with leniency and hope to see him restored to command. He has some bitter opposers here, as well as at the North, but they are in a large minority.

It is a pity that distance presents almost insurmountable obstacles to the employment of troops from California in the armies of the Union, as I fully believe that all the cavalry required by the Government could be raised here, provided that an assurance was given them that they could go "East"; and if consumate horsemanship, together with a constitution hardened by exposure and labor, and an earnest love of country, will make a good soldier, those of California would be unsurpassed.

Although as I said before, a large majority of the people of California are devotedly loyal, still there are many uneasy spirits, who, having "nothing to lose but their lives which they value very lightly, and everything to gain," are using every exertion to plunge the State into the vortex of revolution.

Yours truly, A. J. A.

LEARNING, ON TIME-KEEPING.—Hour glasses were invented at Alexandria, B. C. 149, and Vitruvius relates that about the year 115. Ctesibius, of Alexandria, invented a clepsydra: this consisted of a small boat, floating in a vessel which had a hole in it, as the water escaped, the boat gradually descended, while an oar, placed in it, pointed to the hours marked on the side of the vessel. Ctesibius is said to have applied toothed wheels to water-clocks. Clepsydra were constructed, in which the water dropped through a hole through a pearl, as it was considered that neither could adhesion take place to fill up the hole, nor could the constant running of water enlarge it. Pliny relates that Scipio Nascica discovered a method of dividing the hours of the night by means of water; and this is all we know of the instruments for measuring time used by the ancients. In the year 800, Haroun al Raschild presented a clepsydra to Charlemagne, which is recorded to have struck the hours, which was considered a most wonderful instrument.

Speech of Mr. Trumbull.

HE DECLARES FOR THE SUPREMACY OF THE CONSTITUTION.

Annexed is the speech of Hon. Lyman Trumbull, republican senator from Illinois, made to a republican meeting in Chicago Thursday night. The courage with which he faced the enemies of American freedom does him more honor than all the commissions which could have been heaped upon him by the federal government:

The times are grave! A majority of the people of our state are taking ground against the administration,—and why? In the name of Heaven, why is this? I will tell you why: I will point out to you some of our mistakes that they may be corrected in the future. The reason is, we have not adhered to David Crockett's motto, "Be sure you are *right*, and then go ahead! I have lived long enough to know that I am not infallible, perhaps you are; I have some respect for the opinion of others.

The great change, the change that has damaged the administration above all others, is that we are in favor of the exercise of arbitrary power, that we are opposed to the freedom of speech and opinion, to the freedom of the press, in favor of curtailing personal liberty and in favor of despotism.

We are fighting for the restoration of the Union, and the preservation of the constitution, and all the liberties it guarantees to every citizen. And it makes me feel bad when I hear some honest friend, brimming full of patriotism, say he does not care for the constitution and does not want to have it forced into his way, or thrust into his face until the war is over. The rebels cannot thrust it in his face, for they have no rights under it, *no rights under it*, save the right to be tried and hung for treason.

In certain districts the military law is supreme. Gen. Grant is in command of an army in the State of Mississippi, which is in revolt. Will any one deny his right to make arrests his right to suppress newspapers, and to level fire, like those around you to-night, in order to get a range for his guns? No. And yet those are all *arbitrary* powers. But these exercises of it are not the troublesome cases. The great difficulty is in this district, where rightful civil government is in operation, where the judicial tribunals are open, and the laws respected—the laws which afford a remedy for *every wrong*. As a *rule*, we must remember that civil law is superior to the military law, and the cases are rare, *very rare*, where the rule can be reversed. It here resolves itself into the plain, naked question of whether the President and his Generals, by the simple clinking of a telegraph instrument, can cause the imprisonment of A. B. or C. If one General can do it another can do it, and where is the end? who will fix the limit?

Do you propose to interfere with the ballot-box? [Cries of No! No! Never! from all parts of the meeting.] I am glad to hear you say that, and glad you are unanimous. Did it ever occur to you that the next election may put an entirely different aspect upon affairs? The next election may bring great and deplorable changes, when Vallandigham and men of his class may determine who are to be arrested. Well gentlemen, there is no use in closing your eyes to the facts which exist around you on every side. I told you I came here to address myself to your reason and not to your passions, and in view of that light I ask you who are being elected governors of loyal states, who compose a majority of the legislature of the loyal state of Illinois, and who was recently elected mayor of her principal and most loyal city, and in view of these facts what may the future not have in store? [Cries of—Jennison. Music. We don't want to hear you. You sent a telegram to the President.] I know I am distasteful, but am I not truthful? I would claim your reason divested of passion. The same chalice you hold to the lips of your adversaries to-day, to-morrow may be returned to your lips. Would you like to drink of it? Close our eyes as we may, there is no safety for us, no safety for you and I and every American citizen, now and in the future but in an unvarying adherance to the constitutional landmarks of our fathers. [Farther cries of—Jennison. Music, and much dissatisfaction.]

You are wrong,—It is your greatest and gravest mistake,—in allowing your adversaries to place you in the position of being opposed to the constitution. [Cries for Jennison, and Give us somebody else.] I see that I am distasteful, but I cannot help it and will not detain you long.

Who is there among you who does not believe in adhering strictly to the constitution in these times and extending to every citizen of the loyal States its guarantees? Who among you is prepared to acknowledge our government is a failure? Who among you is prepared to say the constitution is a fine thing for peace—good enough—but when war comes it must be rolled up and laid away? Or in other words, —for it means the same,—who among you is now prepared to substitute the will and opinion of one man, who may be another Vallandigham, in place of the constitution as the supreme law of the land? [Cries of—We don't want any more of that. What's that band for?] Well, hear me through, for I will not be long, and the questions before you are of so much importance and gravity that you should listen patiently and, not only that decide dispassionately.

The constitution is *broad*. It grants all powers necessary, even for the suppression of treason in the North. Yes, gentlemen, it is just as legal and binding upon the General in the field, and the civil officers of the nation, as it is upon the humblest citizen in the land. Has it come to this, that you will deny in the free city of Chicago the right of a citizen to discuss the acts of the President? [Cries of—We won't allow it, and none but copperheads do that, and we will stop them.] Is there a man in the audience who has not expressed his dissatisfaction with some act of the President? [Cries of—Yes, Yes, We have none of us expressed any dissatisfaction.] Ah, do all of you, then, think the revocation of Gen. Burnside's order, suppressing the Chicago Times was right! [Cries of—No! No! It was wrong! He ought to have enforced the order!] Then you all deserve to be taken in hand by the military power and sent beyond the lines.

Release of Vallandigham.

We trust that the democratic state mass meeting which will meet at Springfield on the 17th inst., will peremptorily demand the release of Vallandigham. The president has either seen the folly of his past policy, and become satisfied, like Senator Trumbull, that the statutes of congress forbid the suppression of newspapers and military arrests, or he has showen himself to be a man easily driven from his purpose by a firm and peremptory demand.

The president had no more power or authority to arrest Vallandigham, and try him before a civil tribunal, than he had to suppress a newspaper wherever he can find power to do one, he can find power to do the other.—*Chicago Post.*

SERVE HIM RIGHT.—The man who won't pay the Printer:

May he have sore eyes and a chestnut burr for an eyestone.

May he be shod with lightning and compelled to wander over gunpowder.

May every day of his life be more despotic than Lincoln's Administration.

May he never be permitted to kiss a pretty woman.

May he be bored to death by boarding school misses practicing their first lessons in music, without the privilege fo seeing his tormenters.

May 2.40 night-mares trot quarter races over his stomach every night.

May his boots leak, his gun hang fire, and his fishing lines break.

May his coffee be sweetened with flies, and his tea-cup seasoned with spiders.

May his cattle die with murrain, and the pigs destroy his garden.

May a troop of printers' devils lean, lank, and hungry, dog his heels each day, and a regiment of cats caterwaul under his window each night.

May his cows give sour milk, and his churn rancid butter.

May all his law-suits and love-suits go against him.

In short, may his buisness go to ruin, and he go to———Congress.

EXPEDITION AGAINST THE INDIANS IN MINNESOTA.—The St. Paul Press furnishes some interesting details of the expedition which will soon move against the hostile Indians of the Northwest. It will consist of nine companies of the 7th, two companies of the 9th, and eight companies of the 10th Minnesota regiments, besides nine companies of Mounted Rangers, and a battery of eight pieces and one hundred and thirty men. The train will consist of three hundred mule wagons, six mules to a wagon, and twenty ambulances. Its route is not made public, but its supposed destination is Devils Lake the place where the Indians are gathering. The expedition will act in concert with that of General Cook, which is to move forward from Sioux City, Iowa. Low water has somewhat delayed movements. Besides the above forces, 1,862 men will be left to guard the frontier settlements, and seven hundred stand of arms have been distributed among the settlers for self-defense.

GEORGIA VALOR.—A correspondent of the New York Times, writing from the battle field of Champion Hills, says:

The rebels who, on this occasion, were commanded by Gen. Pemberton in person, fought with the most reckless gallantry. They were mainly composed of Georgians, and were it not that their efforts were expended in the cause of treason, Georgia would have reason to remember with lasting pride the day upon which their sons fought and died at Champion Hills. One entire regiment posted in support of a series of batteries on the crest, refused to retreat when Hovey came upon them, and were to a man killed, wounded or captured. Five-sixths of the regiment were killed where they stood, refusing the boon of life at the expense of being taken prisoners.

Competition, Our Water Route.

Mr. Editor: I wish to direct the attention of our merchants, manufacturers, property holders, and citizens generally, to one fact in which all are materially interested, and of vital importance to the continued prosperity of our growing City. I refer to our water communication with the East.

Let us examine the matter and see what it is doing for us. We then can ascertain more fully its importance.—What, as a competing line, does it accomplish for us? It enables us to ship flour, wheat, &c., from this to Buffalo, New York, Boston, etc., at as low, and occasionally at lower rates than from Milwaukee to those points. It further enables us to pay from 8 to 10 cents more per bushel for wheat than can be paid for it at Ripon or Waupun: consequently farmers even beyond those places will make this their market for their wheat and other products, thus adding to the wealth of our city in an increase of trade.

Let us look without it as a competing line, and see how it appears. Facts we all know are stubborn things—the facts in the case are what I propose to show. Without it then, transportation rates on flour to Chicago 30 to 35 cents, wheat 12 cents per bushel. On flour to Green Bay 20 cents, including dockage, wheat 8 cents including elevating. With it, what are the facts? Rates on flour to Chicago 25 cents, on wheat 7 cents per bushel, on flour to Green Bay 10 cents, wheat 4 cents per bushel.—With these facts all must at a glance see what our water route is doing for us in the matter of low transportation rates, and the increase of trade in consequence.

I am informed by the agent that unless the line is sufficiently patronized, it would be compelled to leave us and run no farther south, than Oshkosh.—If it should take place, (I much hope it will not) our sister city could pay 4 cents per bushel more for wheat than we could possibly, and perhaps even more, to say nothing of the advantage she would having freights on produce going to eastern market, which would be a serious detriment to our trade and prosperity. In view of these facts I would say to you, merchants, manufacturers, property holders, and citizens generally, sustain your water transportation line that is accomplishing so much for you. What you may have to ship to an eastern market, ship by it and what western bound heavy freight you have, ship by that line, give it your patronage as far as you can constantly. I learn that goods by this route reach this city from New York via R. R. to Buffalo, in from 8 to 12 days, and by canal, in from 18 to 22 days, and that rates are as low and generally lower than by any other route.

A CITIZEN.

A GALLANT AMENDE.—Senator Wall, of New Jersey, having in a late speech alluded to "Jesuitical doctrine of the end justifying the means" the *Freeman's Journal* of New York, took him good naturedly to task for it. Senator Wall replies alluding to his accidental use of the old phrase, his letter closing with the following pharagraph:

"I have watched the course of your Church in this terrible struggle now going on, and have been mortified when I contrasted its high magnanimity, unfaltering courage and tolerance, with the base subservience, cowardice and intolerance of some of the priests of the Protestant persuasion. I ever never forget that it was a Roman Catholic colony in Maryland that first unfurled the banner of freedom for religious worship, when the Puritanism of New England was whipping at the cart tail, my ancestors for desiring to worship God in their own way in the town of Lynn."

The following is an extract from a speech of Hon. A. G. Riddle, republican member of Congress from Ohio, delivered in Febuary last:

The freedom of speech is the last franchise a free people will surrender, and our millions will exercise it in the midst of no matter what calamities.—They will discuss the events and management of the war. It is their war, and the humblest of them has an interest in it equal to that of the first citizen, and they must and may discuss his (the President's) acts with a free and manly ken.

War—the depot of sorrow.

Decision on Legal Tender Notes.

The recent decision of the New York Supreme Court against the constitutionality of the "legal tender clause" of the Treasury Note Law, is based on the following facts: Samuel Bowne, in 1811, delivered his bond to the defendant Roosevelt for $8,000, to be paid in August, 1857, to secure a loan of that amount, Roosevelt giving Bowne a check for the sum on the Chemical Bank, payable in gold, if Bowne desired it. To further secure the loan, Bowne and his wife executed a mortgage on an estate in Richmond county, N. Y. Subsequently the premises were conveyed to Meyer, the plantiff, subject to the mortgage, the plantiff assuming the payment of the same, the amount received having been deducted from the purchase money.—The plantiff in June, 1862, tendered to the defendant $8,470 in United States notes, issued the act of Febuary 25, 1862. Roosevelt refused the notes as legal tender, claiming that he should be paid in gold coin. An agreement was entered into that the defendant should receive the notes conditionally, and that the question as to their being being legal tender should be submited to a Court having jurisdiction of the case, and that if the decision should be that they were not legal tender the plantiff should pay the defendant $326.-78, with interest, that being the amount of difference being the market value of the notes and gold on June 11, 1862.—*Mil. Sentinel.*

Hon. C. A. Wickliffe of Kentucky, a member of the peace conference at Washington, has written a latter to the Journal of Commerce under date of May 19th which closed with these words:

I shall live and die under the belief, as I have often said, that if the republican party in that conference had united with the whigs and democrats, and presented the seven resolutions by a unanimous vote, secession would have ceased, the country been saved from the horrors of civil war and our constitution and institutions remained unharmed and unimpaired.

A NEW PAPER FOR THE WEST.—We notice by the Chicago dailies that influential parties are to commence the publication, on the 15th day of June, in that city, of a first class Literary Weekly, for which the best writers in the West have been engaged.

It is to be called "*The Spirit of the West*," and will not only be made equal to any of the Eastern journals in ability, but will be put in direct competition with them at all the News depots in the western country.

A NICE POINT OF LAW.—Blackstone, speaking of the right of a wife to dower, asserts that if land abide in the husband a single moment, the wife shall be endowed thereof: and he adds in a note, that this doctrine was extended very far by a jury in Wales, where the father and son were hanged in one cart, but the son was supposed to have survived the father by appearing to struggle the longest, whereby he became seized of an estate by survivorship, in consequence of which seizing the widow obtained a verdict of her dower.

The sultan of Turkey saw a railway for the first time in his life during his visit to Egypt. He was very much frightened at it, and from Alexandria to Cairo would not allow the engine to go at even ordinary speed, and was eight hours on the road.

Nearly forty young ladies were confirmed on the 21st ult, by the Right Reverend Archbishop Hughes at the convent of Mount St. Vincent, Font Hill, Yonkers, N. Y. The ceremony was very impressive, and celebrated in the beautiful chapel of that institution.

TEMPORAL BLESSINGS.—Wish for them cautiously, ask for them submissively, want them contendedly, obtain them honestly, accept them humbly, manage them prudently, employ them lawfully, impart them liberally, esteem them moderately, increase them virtuously, use them subserviently, forego them easily, resign them willingly.

Richmond papers report gold 600 per cent. premium, and silver 550.

It is said there is not a chicken in Mississippi. The people down there are so hungry for something in the poultry line, that they could eat the weathercock on a church steeple.

The Lutheran congregation at Middletown, Md., have been awarded $2,-397 by the government for the use of their church as a hospital last fall and winter.

Rev. Dr. and Professor Hitchcock, of Amherst College, the eminent geologist, is very ill, and not expected to live. He has been in failing health for some years, and the recent death of his wife has greatly accelerated his steps to the grave.

A cabinet maker of Roxbury Mass., has made two bedsteads out of the limb of the great Elm tree, on Boston Common, which was blown off some two years ago, one of which is to be offered to President Lincoln for the White House at Washington. They are said to be neat specimens of handiwork.

La Crosse, Wis., May 1, 1863.

The Fourth of July

Will be magnificently celebrated in this city this year. Large amounts have been pledged to carry out the above object. All the necessary committees have been engaged on their appropriate duties for over two weeks. Fire-works are being manufactured for this special occasion by a leading Boston House. This latter is something superior to anything ever presented to the Badgers. A talented speaker will be present. The Dartford Brass Band is coming. No pains will be spared to make this a most profitable occasion to strangers as well as residents. Come then friends from the country and neighboring towns and aid us, by your presence, in duly commemorating our Country's Natal Day! Appleton stretches forth her powerful arms and bids you welcome!

Another Hiss.—From Appleton, some anonymous coward writes on a paper returned—"Geo. W. White has been fighting for the negroes for nearly two years. You need not trouble youself to send this contemptible abolition sheet here."—*Wisconsin Chief.*

Such "hisses," are the fashion now-a-days; in other words, Copperheads are increasing, and ere long you and your infernal co-plotters for the supremacy of the nigger over the white man, will hear such a grand universal "hiss" as will make your Abolition Golgotha tumble into its native element—corruption! "Geo. W. White has been fighting for the negroes for nearly two years"! Ah, what a sermon is here preached! Well do we remember when those brave "forty"—Appleton's first offering to our Country—rallied around the Starry Banner for the restoration of the Union! Where is that noble band now? Many "sleep the sleep that knows no waking," others are maimed and crippled for life; some are eking out a miserable existence in death-bringing hospitals, far from home and friends; while a handful have withstood the scourge of the "nigger policy of the Washington Despotism! We contributed two patriots to that band to fight for Union, as defined by Lincoln's Inaugural,—we gave seven more at other times, on the same platform, one fell nobly facing the foe: another is lingering out life in a Washington hospital; another carries a crutch won at Perryville; another is disabled by miasma contracted in the South; the balance are still fighting under the "nigger programme" of this imbecile Administration, notwithstanding Mr. Lincoln's original promise to "conduct this war *in* and *under* the Constitution for the *restoration of the Union*;" in which "private property should be respected, and the *peculiar institutions* of the States should be respected"! Its a wonder that "the very stones do not cry out for vengeance"!

Political Prospectuses.—From the N. Y. Herald correspondent, writing from Washington, we learn that President Lincoln is funnier than ever, baiting his hook and adjusting his line in anticipation of a re-nomination. The Chicago Tribune argues (whether friendly or otherwise we cannot determine) in favor of Mr. Lincoln's taking the command of the Potomac Army in person, and winning a substantial victory over the enemy. "Revolutions never go backward," and Abraham can never again gather the Americans under his flippers, unless he exhibits a greater comprehension of this war problem than he has yet done. Possibly with "sword and pistol by his side," he might kill or be killed thus conferring a boon to the Union in either contingency. Salmon P. Greenbacks, William Howler Seward, "Butler the Beast," Fred. Douglas, Deacon Bross, Governor Andrew, S. M. Booth, the Martyr, and Geological Daniels, are also holding their hats under the droppings of the Abolition sanctuary for official crumbs. Many Republican presses have announced that the campaign of 1864 was opened by that party in the organization of the "Union Leagues"! If public feeling does not become toned down much, the coming Presidential Campaign promises to be the most violent ever held in the United States.

Col. J. H. Howe of this state has been appointed provost marshal of Memphis.

The Episcopal Convention met at Milwaukee this week.

Ourselves.—Next week we shall issue no regular paper, consequently our new volume will commence the following week. This will afford an opportunity to make some new arrangements in our office, and our debtors can have a favorable time to renew subscriptions, pay bills, &c. Our first issue will be almost exclusively filled with a full account of the College exercises. We have the best critical talent engaged for that occasion. Friends desiring extras, will leave orders. Subscribers will be prompt in fulfilling their obligations, as we need our dues to aid our business. Our past course is our future guarantee, with only such changes as are best calculated to advance State and Local interests. Our "political politics" will ever be, as heretofore, true blue, unadulterated Democracy—"the Union, the Constitution and the Enforcement of its Laws." Our Local Department will tend, as usual, to the development of Northern Wisconsin generally, but particularly to our own "Garden of Eden," Outagamie county. If you are pleased with our craft, come and journey with us another voyage.

The Democracy of Ohio, *only* 50,000 strong, met in Convention at Columbus on Thursday and nominated Vallandigham for Gov. by acclamation. Geo. E. Pugh was nominated for Lieutenant Gov. The utmost harmony prevailed. A committee of twenty was appointed to wait on the President and demand Mr. Vallandigham's release.

Judge Trumbull's Speech.—Let no one fail to read this patriotic effort of Hon. Lyman Trumbull, Republican U. S. Senator from Illinois. Considering that he has been one of the most able and steadfast members of that party, this carries with it tremendous force. It will be seen the Republicans did all (?) in their power to allow the Judge a fair hearing!!

"Who Stole the Meal?"—The Oshkosh Review publishes the Declaration of Independence and the XXIII chapter of St. Luke. It remarks on the former, that to Abolitionists it "will have all the freshness of a sensation telegram"; and cites the latter as a parallel case with that of Vallandigham? That would be all very nice, had not the Columbus (Ohio) Crisis published the same remarks applicable to the same!

When you hear a man bellowing about his neighbors' loyalty, with such expletives as "traitor, disloyal, treasonable, Copperhead," make up your mind that he has been beaten in political argument and takes that method to vent his chagrin!

The Motor has made its annual offering to the students for their Exebition printing! The College Boys should favor that delectable sheet, as a return for the *interest* it manifests in their welfare! How's the Greenville draft?

The greatest Cavalry fight of the war occurred near Beverly, Va., on the 8th inst., between Stewart's rebel cavalry, aided by artillery, and our cavalry under Pleasanton. The forces were about 15,000 strong. We repulsed them, thereby preventing another raid. Loss severe on both sides.

The Governor of Illinois has prorogued the Legislature, thus defeating the most important measure—the Soldier's Relief Bill. The democrats protested against this outrageous and unconstitutional usurpation, and resolved to take up collections at the great meeting on the 17th.

Gen. Sibley of Minnesota, has issued an address to the soldiers forming the expedition which starts from St. Paul on the 15th. He tells them that hundreds of miles must be traversd. battles fought, severe labor performed, and even hunger and thirst may have to be endured. He deems the force amply sufficient, and says it is equipped with the best arms in the service. He speaks confidently of terminating the war speedily and effectually, and adds that nothing but gross negligence and other misconduct, humanly speaking, can be productive of disaster to the expedition.—*Mil. News.*

Garibaldi has got rid of the rheumatic pains in the right arm, which gave him great annoyance, and hindered him from writing. A Genoa journal says that the wounded foot is rapidly healing, and that the injury received will not in any way interfere with his activity.

A Vile Copperhead Sheet.

One of the meanest sheets in the northwest is the La Crosse *Democrat.* Its editor is reputed to be dirtily smart, and has every maintained such equivocal repution at the expense of decency, and of late patriotism. His only ideas begin, have their middle, and end with "nigger." The "nigger" furnishes his entire munitions of war. He can only be smart (call it not wit) at the "niger's" expense. One would think he eat, drank, digested "nigger." He has "nigger" on the brain—in fact, "nigger" furnishes his entire stock in trade as it does the rest of those hang fire, anti-loyal papers now a days calling themselves democratic. The country is on the high road to ruin, our soldiers are battling for the Union and the preservation of the nation's life; we are daily losing relations and friends from wounds and diseases in the holiest cause that was ever submitted to the arbitrament of arms, and all they can do, write or say is "nigger, nigger, nigger.—*Chicago Railroad Gazette.*

Such a notice from such a paper is a high compliment. The editor of the Gazette must be drunk not only with fanaticism but with crazy whiskey.—We know he is an absurd, nonsensical, sophistical, inconsistent and hair—brained abolitionist—a sort of editorial Don Quixote, so narrow minded as to entertain but one idea at a time, and that is abolitionism. Talk to us of "nigger," when for years you and your blue bellied, motley, long faced, sanctimonious driveling, ignorant and platter brained brothers in zeal have breakfasted on nigger, dined on nigger, supped on nigger, lunched on nigger, and go to bed with his wooly head so close beside yours on the same pillow that but one set of brains were needed for both. A democrat talking of nigger! Why bless your little fanatical soul! who began the fight? Such men as you—thin-brained, superficial politicians have talked nigger and the abolition of slavery till the land is red with blood. In the House of God—in the funeral pulpit—in public print—in lying books, through ignorant and conceited ministers, who in preaching nigger preached of what they knew most of—in Congress—in prayer meeting—in caucus—in convention—on street corner and in law doggery—in cars, stages, and on boats, by night and by day: in season and out of season, you frenzied abolitionists have lived and fatted on the nigger. No wonder you are sick of it. Your cry of nigger brought on this war. Your pack of hell born fanatics have broken the Union—have demanded from Maine to Oberlin and from Uncle Tom's Cabin to the thieving John Brown's grave that the war be prosecuted on your sneaking basis.—Sweet chap you are to object to a few words on the "nigger" now. The policy of this war has been changed to suit such men as Philips, Greeley with nine hundred thousand—Andrews with his half million—Yates with his flaming sword and the entire pack of lazy abolitionists who are happy if from the spoils of war they get even one little nigger to black boots, brush clothes and be a figure head of their belief.—You ought to be indicted for treason to object to our writing about the nigger, when your President has by proclamation made him the equal of himself and you all—when you have forced the white soldier down to the level with an innocent cause of this war—when you have advertised to the world that the brave and stalwart Northmen are no match in pluck and prowess for the Southern rebels, but must call in niggers to their aid.

A pretty chap you are to object to nigger now. We are glad it is nauseous to you, and so long as we see fit shall keep the dash close before you.—You frenzied meddlers have fed us nigger, raw, roasted, baked, stewed, fried, boiled, stuffed, spitted, potted, friceassced, dried, jerked, pickled, hashed, and souped till we rather like it for a steady diet, and now intend to make landlord eat with the guests. If nigger makes you sick we are glad.—*La Crosse Democrat.*

War News.

Brig. Gen. T. H. C. Smith, by order of Gen. Pope, has assumed command of the district of Wisconsin.

A drove of seventy-five government horses took to flight, Wednesday, in the neighborhood of St. Paul, and only fifteen of the number were recovered.

A Hilton Head letter of the 4th, reports a raid by two hundred of the South Carolina Regiment, under Col. Montgomery, into the interior, and returned without the loss of one man, and with one hundred contrabands and a large amount of other property.

It is stated that five hundred might have been brought off had transportation been sufficient. Fifty dwellings of secessionists were destroyed.

The democrats of Poynette and vicinity held large meetings on Saturday afternoon and evening. Among the speakers was Judge Wakeley of Madison, and Major Havey of the regular infantry. The latter is a nephew of Mr. Seward, and voted for Lincoln. He has been three times wounded since the war began. He said that it was his duty neither to fight or obey except in defence of the constitution and laws.

Banks has been reinforced to the number of 6,000 troops. The enemy have altogether not over 10,000, and are entirely cut off from succor.

Our total losses at Vicksburg thus far amount to 7,000. The weather was dreadfully hot, and is making inroads on our troops. Bombardment is the order of the night—sharpshooting during the day. The width of the disputed territory between the forces is from 50 to 150 yards. Grant estimates our losses, from the time he left Grand Gulf, at 7,500—4,000 of whom are wounded slightly; and have mostly resumed duty. Rumors are rife that the rebel Johnston, with 20,000 fresh troops, has appeared at the Big Black. Grant has also been reinforced.

Our forces at Yazoo City had a brisk fight with the foe, repulsing them and capturing 100 prisoners. Our loss 1 killed and 17 wounded.

One division of Hooker's Army have again crossed the Rappahannock, and expectations are that another battle may soon be fought. The rebels are making movements seemingly to invade our territory in that vicinity.

A terrible battle has been fought, under Banks, at Port Hudson, May 27 and 28, in which our troops, after gallantly contesting every foot of ground, were beaten. Our loss was 4,000. A Negro Reg't lost 600 over of 900. The 4th Wis. lost its Col., Lieut. Chittenden, and 70 out of 300.

Two enrolling officers have been killed in Indiana, and one rumored to be killed in this State. Shame on such outrages. Punish the culprits.

San Francisco, June 9.—The Mexicans were repulsed before the Fortress Carmen. The garrison and inhabitants of Puebla were in a state of starvation.—The ammunition was failing and Ortega was disappointed that Comonfort could not cut his way through with supplies for the besieged.

On the 17th Gen. Forey sent a flag of truce, offering to allow the Mexican officers and soldiers to march out with side arms, provided they gave a parole not to serve against the French.

This was declined by Ortega, who, in the meantime, spiked the cannon, burnt the gun-carrages, destroyed the infantry arms, and then surrendered. The Mexican General Rezuls, his aid his ordinance officers, preferring death to prisoners, shot themselves.

The advance of the French army was at Cholulu, six miles beyond Puebla, on its way to the capital. The Mexicans were much embittered against the French, and all Frenchmen were ordered to leave the capital within eight days. The Mexicans will defend the approach to the capital to the last.—Great enthusiasm prevails. This account is from Mexican sources.

Salt Lake, June 10.—Thirty mounted Indians attacked a coach thirty miles west to-day, and killed and scalped the driver and another employe.

Gen. Elliott's brigade made a descent on a camp of guerrillas, in Arkansas, on Friday, 15 miles from the river, capturing 15 prisoners and $6,000 worth of provisions. In a barrel of flour was found 200,000 persussion caps.

Sympathy for the Poles has extended to Ireland, and already forty thousand pounds sterling have been contributed towards raising an Irish brigade, to aid the Poles, and it is believed this money has been contributed secretly by Nepolean III, who sympathises with the poor Poles.

In the legislature of Illinois on Monday, a resolution of thanks to the President and Judge Drummond, for the action taken by them in the case of the surpression of the Chicago Times. was unanimously adopted by both houses.

Bonds have been deposited at Washington for the establishment of a government bank at Janesville in this state.

About nine hundred emigrants, mostly from Germany and Wales, passed through Detroit on the 4th, *en route* for Utah.

The engine house of the Chicago & St. Louis railroad at Chicago, was destroyed by fire last Saturday. Loss $30,000.

The small pox has made its appearance in Madison.

Gen. Hascall has been relieved by an order from Gen. Burnside, Gen. Wilcox succeeds him in the government of the Indiana and Michigan. Gen. Hascall gracefully retires, issuing, like a dying swan, an order revoking his famous Order No. 9, in order, as he says, that his successor may not be embarrassed with an entanglement concerning the liberty of speech, the liberty of press and white people's liberties generally.—*Mil. News.*

The Boston Commonwealth is authority for this anecdote.

"I have examined this negro business and probed it to the bottom," said the president, in reply to an application from some captain who wanted to raise a negro regiment. "It's the same thing with all of you. If I have authority to raise this regiment the result would be that you would get colonel's pay for several months, and I would get—*not a nigger!*"

Our Woodland Home.

The following is the order of Anniversary and Commencement Exercises, in connection with Lawrence University, at the close of the present Collegiate year:

Ladies' Exhibition, Friday Eve., June 19th.

Baccalaureate Sermon, Sunday, at 3 o'clock p. m.

Sermon before the Missionary Society, Sunday Eve., by Rev. Dr. Tiffany, of Evanston, Ill.

Examination of Classes on Monday, from 8 a. m., till 12 m., and from 2 to 5 p. m.

Address before the Philalathean Society, Monday Eve., by Rev. Mr. Fowler, of Chicago.

Examination of Classes on Tuesday from 8 to 12 a. m.

Educational Convention on Tuesday afternoon, to be addressed by Bishop Simpson and Dr. Eddy.

Exhibition of the Preparatory Classes, Tuesday Eve.

Commencement on Wednesday, followed by Commencement Dinner.

Arrangements have been made with the Northwestern R. R. Co., by which those who pay full fare in coming to Appleton, will return free of charge, by procuring a certificate of J. S. Buck, Esq., Secretary of the Board of Trustees. Gratuitous entertainment for Clergymen can be procured by calling on Rev. Joseph Anderson.

Trustees meet at 2 o'clock, P. M., Monday, 22d.

The procession will form as usual, at the Lady's Boarding House, on Commencement Day, at 9½ a. m.

R. Z. MASON, *President*.

Lawrence University, Appleton, June 11, 1863.

☞ Publishers of newspapers will confer a favor by publishing the foregoing.

☞ Vincent Young and J. Nelson, 32d reg't, have been on a furlough, in Dale, and return next week.

☞ Lieut. J. G. Cavert, 3d Wis. Cav., came home to this place, on a furlough, yesterday.

☞ The town of Dale extends greeting to the Roadmasters of Greenville and Grand Chute, hoping they will examine their (Dale's) roads and do likewise.

☞ We understand that an Extra Session of the County Board will be held soon. By rights this body should meet at least once in two months.

☞ As will be observed, Bishop Simpson, Dr. Tiffany and Dr. Eddy will be present at the ensuing Commencement.

☞ In some some portions of this county winter wheat and corn are turning yellow owing to too much rain. Spring wheat looks first rate.

☞ Poisoned.—Mr. Tupper was terribly poisoned, in the face and eyes, with wild ivy, one day this week. His left eye is completely closed.

☞ A State Convention of the Congregationalists of Wisconsin, will be held in this city sometime in September next, when, it is expected every preacher in the State will be present.

☞ Large Contract.—L. P. White, Jr. & Bro's, of this city, have made a contract with the C. & N. W. R. Co., to furnish 110,000 ties for the Peninsular Railroad to Lake Superior.

☞ Swineford—he who gives Republicans the galloping nightmare thro' the Oshkosh Review—made us a flying visit on Tuesday morning. He is a live Editor and deserves a big smile from Dame Fortune.

☞ $15,000!—Such are the footings of Mr. Pettibone's trade in this town during the past year! They do no credit business. Another evidence of the benefits of liberal advertising.

☞ 2d Ward School.—Mr. Beach and his estimable lady, have been secured as teachers in the above school of this city. They have been employed in a similar place at Menasha, the past year, and were highly appreciated.

☞ Many of our sporting characters are daily in the habit of visiting Neenah on huge fishing excursions, bringing back large "strings" of the finny tribe.

The Menasha Pail Factory building and warehouse are completely enclosed. The former will soon be in full operation on a more extensive scale. Quite a number of buildings are being erected there this Summer.

☞ The citizens should make every effort to render pleasant and profitable the visit of the usual distinguished guests consequent on the ensuing Commencement Week. Extra care and labor sometimes bring extraordinary results.

☞ More Rye.—Mr. Elkins brought in a bunch of Rye, on Wednesday, which measured *seven and half feet*, and numbered *thirty-one different stalks, all grown from* one seed! It was produced on Reeder Smith's farm, about a mile from our office. Who can beat it?

☞ Vagrancy.—A *nymph du pave*, (in male attire,) calling herself Rosa Smith, was arrested by Marshal Price and brought before Justice Warner, on charge of vagrancy, Wednesday last. Pleading guility, she was given six hours to *vamose* the city limits, or be sent up for thirty days. Of course she turned her course towards her home at Oconto.

☞ Would it not be of greater moment to improve the roads leading into country, thereby commanding trade and travel which frequently goes to other places, than making unnecessary outlays in the city proper? We do not charge that the latter is being done but hints have been thrown out that such might be the case.

Judges Doolittle and Howe deliver orations at Ripon the coming 4th. Arthur McArthur at Waupun.

☞ Business is very lively in town, streets are daily crowded with teams, strangers rushing in hunting for residences.

☞ Stoves.—Russell has just received one of the largest kind of stocks of cooking and parlor stoves, various approved patterns. It is a splended lot. His brick-ovens are *capital*.

☞ From the 21st Wis.—Allen W. Ballard has returned, discharged and disabled, from this regiment. He has seen much service, been a faithful soldiers; and is welcome home.

☞ Fourth of July Ball.—Dan. Fitzpatrick, of the Angier House, New London, gives a Grand Ball on the evening before the Fourth. Good Company and Good Music, will certainly warrant a Good Time.

Forest Lodge, No. 130, I. O. G. T. This Temple celebrated its fourth anniversary of its organization. at its hall in this place. on Tuesday evening last. Much good has been wrought through its efforts since its foundation.

☞ Personal.—We notice among the arrivals at the McNiell House, during the past week, that of Rev. Dr. Chapin, President of Beloit College. He has accepted an invitation to officiate at the Congregational Church, in this city, next Sabbath.

☞ Real Estate Sale.—Eighty acres of wild, unimproved land sold this week, in the town of Greenville, for the snug sum of $1,200! This town is composed almost wholly of hard-working, actual settlers—only about two sections of land being held by speculators.

☞ Musical.—By a "special," quite a pleasant musical treat was given on Monday eve., by vocal and instrumental performers, at Mr. Cuthbert's rooms. The Violin, Guitar, Melodeon, Piano, and "Irish" were excellent: while the "Fox River Valley Nightingales" were superbly grand. "The wee sma' hours ayont the twal" only summoned a separation.

☞ Green Bay and Sarnia Route.—See advertisement *of the Grand Trunk* Railway in to-day's paper. Passengers are put through to New York in 65 hours and to Boston in 55—found on boats. But one change between the Bay and Boston, and most points at the East. The most delightful route. Only 10 hours on water and at half the usual Railroad fare—2½ days to Buffalo.

☞ Another Runaway!—Wednesday evening last, a span of horses, attached to a carriage, ran from the 3d ward, (where they were hitched to a small stake) to the center of Lawrence street, scattering everything before them. They were in charge of Dr. Tompkins. His little daughter was in the carriage at the time was thrown out at the first street corner: and was severely bruised—the wagon running over her, inflicting some deep gashes in her limbs. No other damage done.

☞ Louis writes from Greenville that he "would like to see a portion of our paper devoted to agricultural correspondence: say one or two write from each town, giving practical experience squeezed into a small compass. This would materially aid in developing our county: besides a sort of chit-chat—questions and replies—fruit, field, hog, and other useful talk—would be of value to farmers." We like the idea, and extend an invition to all contributors.

"L. B. Mills, 32d reg't, has returned home disabled, discharged, and has lost his right eye."

☞ That Lecture!—Rev. Mr. Fowler, of Chicago, as will be noticed, delivers the Address before the Philalathean Society this year. He comes highly recommended by Dr. Eddy and other distinguished lecturers, and is considered the most eloquent pulpit orator in the Western States. An admittance fee of 25 cents will be charged to assist in defraying the expenses, and if any extra should be realized, will be used to add to add to the Society Library. Our citizens should do all in their power to assist the College Boys in every well-directed effort to increase a high standard of Oratorical Literature.

☞ Commencement Dinner.—This is a subject of interest to the hundreds who usually expect to regale the "inner man" with creature comforts, after the intellectual feast of the College Commencement exercises. This dinner, for the coming occasion, will be provided by Mr. Cleggett, who we can assure our readers will prepare a bill of fare second to no similar occasion. Accommodations will be made to feast the crowd, however large. Tickets may be had at the Book and Drug Stores: also of the Faculty

☞ One of the old gov't guns from Fort Howard has been purchased and will occupy its appropriate place in the great forthcoming celebration of the Fourth of July. If care be taken in using this gun there will not be the slightest danger of accident, but the experiments which have been tried so *successfully* on that gun which was bursted in town a few years ago, must not be repeated with this one.

☞ The following is the list of Justices of Peace, for this county, and returned to the Sec'y of State by the Cl'k of the Court, as duly qualified on or before the first Monday of May, 1863:

Names.	Towns.	Remarks.
J. D. Axtell,	Hortonia,	Full Term.

Philalathean Society Exhibition.

THE CHAPEL

Was well filled, at an early hour, with the beauty and talent of our Woodland Home, all "eager for the fray." Two American flags, joining their blue together at the top, formed a splendid canopy over the stand. Chandeliers shed their soft rays of light throughout the audience.

THE MUSIC

Consisted of a "select" Orchestra, or in other words, Christy's Menasha String Band,—and discoursed the sweetest strains. Two selections of vocal music were given—"The Evening Bells," and a nasty Abolition campaign song, which was very much out of place.

THE EXHIBITION

Was certainly as creditable, in ability, as any (Seniors excepted) ever given in the College. We will endeavor to be as just as possible, considering our limited space:

"Parturiunt montes nascetur ridiculus mus." M. D. Sampson.

Easy, graceful bow, manner clever, but an unpleasant swinging of the head: gesture constrained; enunciation somewhat monotonous. Theme—Some fine thoughts: a beautiful tribute to our "brave boys." a wipe at Northern disunionists—undoubtedly intended for Abolitionists—they deserve it all.

All things change save one ...... J. H. Osmundson.

Preliminaries cannot be much improved. Theme—Scholarly, studied, pleasing. A beautiful sentiment in acknowledgment of the perfection of Deity.

Shoulder Straps ...... Dr. A. Stone.

Style and gesture off-hand and familiar. Theme—racy and pointed in the extreme. Some tall hits at "Union Leaguers." Our Printer Boy shone well among the big lights of wisdom.

What constitutes a man? ...... W. H. Allen.

All the world a lawyer—in word, act, gesture, enunciation, substance. Enunciation studied, owing probably to vocal defects. Theme—Logical on the serio-comic order, with originality. Finely conceived composition.

The Present Age a Positive One. W. M. Hubbard.

Manner, gesture and oratory positive: energetic, argumentative, solid. Imagery and descriptive good. Habit of walking constantly not in good taste—questionable, except on extraordinary occasions. Article well written without pedantry.

Essay—War Unholy ...... E. A. Seavers.

Too much of the ministerial-exortation tone to be appreciated by a mixed assemblage. Argument lacked positiveness and vim. Some good thoughts.

Question—Had the Ancients a greater field for Eloquence than the Moderns?
Aff.—J. H. Hauser ...... Neg.—E. Stowe.

Mr. Hauser made a strong, forcible and logical argument: is an easy debater: and grasps main points readily, but is apt to overlook some prominent details. Mr. Stowe surpassed all his previous efforts in debate, and won a large share of favor: be more energetic and your future is prosperous. The latter carried the decision of the Judges.

The Peace Party of the North ...... J. P. Cross.

This gentleman read an Essay entitled "Love-Sickness," in lieu of the above—owing to "unavoidable circumstances," as announced by the Pres't. His theme was, therefore, not up to his usual standard: but it nevertheless was well done. Mr. Cross, with all due respect to the other students, is the ablest scholar in Lawrence University, and will make himself felt in the outside world.

More Valuable than Gold!

Bryan's Life Pills.

Science has at last brought to light the true antidote of sickness and misery. It is the life free from sorrow, pain and disease.

By the use of BRYAN'S LIFE PILLS, those who wander to the depth of sorrow and whose nervous temperament is [illegible] a new existence. And what is more [illegible].

The nervous Hypochondriac need no longer resort to Opium, Morphine, liquors or other stimulants to drown the cares of life. BRYAN'S LIFE PILLS are a perfect substitute; they regulate the Stomach, Liver and Pituitary secretions, the derangement of which is the chief cause of Nervousness, Headache &c., and warm the cold in need with the fire of activity.

The Poet is inspired with thoughts of brilliancy. The Orator with words of fire. The Soldier with unlimited courage. The Statesman with new and brilliant ideas. The Inventor with bright conceptions of discoveries.

BRYAN'S LIFE PILLS are a universal Nervine, owing to equal overleaping the barriers of prejudice, and curing like magic, all cases of

Nervousness, Emaciation, Hysteria, Low Spirits, WANT OF ENERGY AND EPILEPSY.

They are a sovereign remedy for Headache, and in fact, all diseases, no matter what their names, that have their origin in nervous derangement of the Stomach and Liver, and their march is onward to perfection.

They operate as a mild cathartic and are adapted for all ages and constitutions.

A few doses will light up the eye with brilliancy, impart a rich glow of beauty to the cheeks, fill the soul with ecstacy and bring the beauties of the unknown world down to mortal vision.

Melancholy and gloomy anticipations are dispelled, and the demon of ennui is banished.

Loss of power and impotence yields before them as the dew before the rising sun.

Debilitated persons are renewed in strength and vigor under their magic influence, and they are capable of almost inconceivable endurance.

They possess the power of producing sleep as peaceful as an infant, and of lulling pain like charms from the land of spirits.

Rheumatism, Neuralgia, Palpitation of the Heart, and Prostration is entirely cured by the use of them.

They are a rival to Quinine, as a general tonic and for the cure of Chills and Fever.

The pernicious habit of Opium eating and dram drinking is overcome by the use of them.

The dispirited become hopeful, the despairing happy. The nervous spring into elastic life.

The Author, and Speaker, each receive new ideas, and the pen of fact and fancy is gifted with a skill that entrances the world.

The soldier forgets the weariness of his march, and is endowed with almost supernatural endurance.

The Mechanic is raised to the highest pinnacle of invention and discovery, and imbued with the spirit of unfailing energy.

Sold by all Druggists, in boxes, 25 cents each. And in large boxes, containing 5 small, $1 each.

They will be sent by mail, prepaid, on receipt of the money, by the proprietor,

DR. RADWAY'S

PILLS.

NEWLY DISCOVERED PRINCIPLES IN PURGATION

DR. RADWAY'S PILLS ARE THE BEST PURGATIVE Pills in the World, and the only Vegetable Substitute for Calomel or Mercury ever discovered.

Composed of Vegetable Extracts of Gums, Plants, Herbs, Roots and Flowers.

They Purge—Cleanse—Purify—Heal—Soothe—Calm—Strengthen—Invigorate—and Regulate the System.

IN SUDDEN ATTACKS OF

INFLAMMATION OF THE BOWELS, BILIOUS CHOLIC, BILIOUS FEVER, ERYSIPELAS, CONGESTIVE FEVER, SMALL POX, MEASLES, SCARLET FEVER,

SIX TO EIGHT PILLS

Will purge the disease from the system in

SIX HOURS.

If seized with either of the above-named diseases, let six or eight of Dr. Radway's PILLS be taken at once. *This single dose* will carry the patient out of danger. Their continued use, in smaller doses, will work a cure.

COATED WITH GUM.

They are pleasant to take. They operate pleasantly, naturally, and *thoroughly*. Every dose that is taken imparts *strength* to the enfeebled system. Being *perfect purgatives* they do not leave the *bowels costive*, or the patient *weak*.

ONE OR TWO OF DR. RADWAY'S PILLS Will secure a good appetite and healthy digestion.

TO THOSE WHO TAKE PILLS,

DR. RADWAY'S PILLS will be found an improvement on all purgative or cathartic pills in use. One or two pills will be found sufficient to keep the bowels regular; and in cases where a brisk operation is desired, SIX to EIGHT will in *six hours thoroughly purge*.

Ladies who desire to avoid the sufferings and inconvenences of these irregularities, or organic obstructions, should not omit to regulate their systems by means of one or two of RADWAY'S PILLS, once or twice a week, and thus be free from the many and great inconveniences to which ladies are generally subject.

WEIGH FACTS.

DR. RADWAY invites the attention of the intelligent public to the facts here presented, showing the superiority of his PILLS as purgatives, over all other pills in use.

THEIR GREAT COMBINATIONS.

They are Aperient, Tonic, Laxative, Alterative, Stimulant, Counter Irritant, Sudorific.

AS EVACUANTS,

They are more certain and thorough than the Drastic Pills of Aloes, or Croton and Harlem Oil, or Elaterium; more soothing and healing than Senna, or Rhubarb, or Tamarinds, or Castor Oil.

AS ALTERATIVES,

They exercise a more powerful influence over the liver and its secretions than calomel, mercury, blue pill, hence their importance in cases of Liver Complaints and Spleen Enlargement, Jaundice, Dyspepsia, Bilious Attacks, Headache, &c. In the treatment of Fevers, either Bilious, Yellow, Typhoid, and other reducing Fevers, they are superior to quinine. Their influence extends over the whole system, controlling, strengthening, and bracing up the relaxed and wasting energies, and regulating all the secretions to the natural performance of their duties, cleansing and purifying the blood, and purging from the system all diseased deposits and impure humors.

THE CAUSE OF PILES.

A large dose of the Drastic Pills will, by irritating the mucous membrane, produce a violent expulsion of the contents of the bowels, but in so doing other secretions are impeded. In such cases, the stools will be found to be light colored and watery, and attended with cramps, griping pains, nausea, sickness. By this increased action of the bowels, the secretions of the kidneys and pancreas are diminished, followed by affections of the kidneys, bladder, urethra, piles, tenesmus, general prostration, costiveness, and indigestion.

Why Radway's Pills Cure Small Pox.

In Small Pox, Scarlet Fever, Erysipelas, Yellow, Typhoid and other *reducing Fevers*, purgation is highly essential. But to administer a dose of Drastic Pills the relaxation they would produce and the relaxation and depletion that would follow, would be likely to prove fatal. If physicians, in these cases, would give RADWAY'S PILLS, they would always cure their patients. In these diseases a *mild, soothing, healing and gently stimulating* laxative is required, which is secured by RADWAY'S PILLS.

Why Imperfect Pills Gripe.

The cause of griping, nausea, sickness, tenesmus and debility, is attributed by a dose of drastic pills, is owing to their imperfect operation. If with the *faeces*, the *diseased humors*, left circulating in the system, were expelled by these pills, there would be but little pain or griping. It is the absence of the bile and other humors which the imperfect pills fail to *purge out of the system* that occasions the pain. By examining the stools evacuated after severe griping they will be found thin and watery.

THE TRUE PILLS TO TAKE

The only safe pills to take are Dr. Radway's, because they are the only pills that secure purgation without depletion, and expel diseased humors from the system.

CASE OF DYSPEPSIA CURED.

For many years I have been afflicted with our national complaint, called Dyspepsia—my sufferings have been a constant succession of horrors. I have spent thousands of dollars with the hope of realizing a little comfort and tranquility. All medication failed to relieve me, until I commenced to act up in the judicious advice you gave me on the 6th of April, 1856. And now, after using your Pills, I feel like a new man. God bless you, and may this letter induce other suffering victims to this accursed malady, to try the same means.

Yours fervently, W. CARPENTER.

Letter from Dr. Salmon Skinner.

New York, January, 1860.

Dr. Radway & Co.:

I have, during the past four years, used your remedies, and have recommended them to others for Bilious Complaints, Indigestion, Dyspepsia, &c. I consider the Ready Relief and Regulating Pills unequaled. The Regulating Pills are mild in their operations and thoroughly effective.

The first dose should be large enough to purge, say four or five, and each successive dose be diminished one pill, until reduced to one, and then repeated every day for a week or ten days. A permanent cure will surely follow.

Yours, &c., DR. S. SKINNER.

"How Beautiful and Natural."

This remark was overheard on the street the other day, made by a lady after she had been examining one of those splendid pictures taken at Patton's new gallery of art. The fact is that Mr. Patton has purchased one of the finest instruments in the State, with the latest Improvements, and can't help turning out the most satisfactory pictures. Why, those full length Ambrotypes cannot be surpassed for beauty and clearness. The arrangement of his light enables him to take the most perfect of pictures. But the proof of the pudding is always in the eating, so we say go and see and satisfy yourselves.

"UNQUESTIONABLY THE BEST SUSTAINED WORK OF THE KIND IN THE WORLD."

Harper's

NEW MONTHLY MAGAZINE.

CRITICAL NOTICES OF THE PRESS.

The volumes bound constitute of themselves a library of miscellaneous reading such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellencies of Harper's Magazine—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—*Trubner's Guide to American Literature, London.*

No Magazine in Europe or America is so well known; none has half as many readers, and, we may safely, say, none has received so large a tribute of admiration from the cultivated classes, that delight in a healthy, diversified, elevating periodical literature. It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant, Baltimore.*

Harper's Pictorial History

OF

The Great Rebellion

IN THE UNITED STATES.

Messrs. Harper & Brothers have commenced the issue in Numbers of a complete History of the Great Rebellion in the United States. The work has been for many months in course of preparation, by a writer every way qualified for the task.

The introduction contains a clear and succinct account of the foundation of the Confederacy; the formation and adoption of the Constitution of the United States, and the establishment of the National Government; the origin, development, and progress of the doctrines of Nullification and Secession, and the various phases which they assumed until their final culmination in Rebellion.

The History comprises a full account drawn from the most authentic sources, of all events of the War; the intrigues of the Southern leaders at home and abroad; the gradual defection of one section; the great uprising of the people for the maintenance of the Army and Navy; and the Battles by Land and Sea.

The Illustrations comprise portraits of all those who have borne a prominent part in this struggle; Maps of different localities; Plans of the leading actions; Views of every scene of interest, and of the most important battles. These illustrations are mostly from drawings taken on the spot by artists deputed for that purpose to accompany every division of our army and navy.

Every facility at the command of the Publishers has been employed in the preparation and execution of this work; and they confidently believe that it will form the most trustworthy and valuable history which can be prepared of the

Great Struggle for the American Union.

MODE AND TERMS OF PUBLICATION.—The work will be issued in Numbers, each consisting of 24 pages of the size of "Harper's Weekly," printed from clear type upon fine paper, and will probably be completed in about Twenty Numbers.

The numbers will be issued at intervals, if possible, of about three or four weeks.

The price of each Number, which contains matter equivalent to an ordinary volume, will be Twenty-Five Cents.

The Illustrations in each number are alone worth the price asked. Men out of employment, especially SICK OR DISABLED SOLDIERS, can find no other work so sure of ready sale and good profits. For further particulars apply to the Publishers.

LOOK TO QUALITY.

As a paramount consideration, reverse the rule making a low arte of premium the chief essential; for the *cheapest* rate is too frequently only an index of the poorest insurance.

As our rates are graduated by the law of compensation, after ample experience, the propriety of Insurance extends with equal force to the safer classes of property it does to those of a more hazardous nature. The safer the risk the lower the percentage—the greater the hazard the higher the premium. So protect your property by a good policy from the Ætna. 10tf

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; [illegible]

The Early Physical Degeneracy of

American People.

Just Published by Dr. A. Stone, Physician to the Troy Lung and Hygenic Institute.

A Treatise on the causes of early physical decline of American people; the cause of nervous debility, consumption and Marasmus.

This work is one of high moral tone, written in chaste yet thrilling language, and appeals directly to the moral consciousness of all parents and guardians especially, detailing scientific and reliable aids and treatment for cure. It will be sent by mail on the receipt of two (3) cent stamps.

Parents and Guardians! fail not to send and obtain this book. Young Men! fail not to send and get this book. Ladies! You too should at once secure a copy of this book.

A Word of Solemn Conscientious Advice to those who will reflect.

A class of maladies prevail to a fearful extent in the community, dooming at least 100,000 youth of both sexes annually, to an early grave. Those diseases are very imperfectly understood. Their external manifestation, or symptoms, are nervous debility, relaxation and exhaustion; marasmus or wasting and consumption of the tissues of the whole body; shortness of breathing or hurried breathing on ascending a hill or flight of stairs; great palpitation of the heart; asthma, bronchitis and sore throat; great palpitation of the heart; asthma, bronchitis and sore throat; shaking of the hands and limbs; aversion to society and to business or study; dimness of eye sight, loss of memory, dizziness of the head, neuralgia, pain in various parts of the body; lumbago, dyspepsia or indigestion, &c.

Now in ninety nine cases out of every one hundred, all the above named disorders, and a host of others not named, as consumption of the lungs and that most insidious and wily form of consumption of the spinal nerves, known as Tabes Dorsales, and tabes mesenterica, have their seat and origin in diseases of the pelvis viscera.

Dr. Andrew Stone, Physician to the Troy Lung and Hygenic Institution, is now engaged in treating this class of modern maladies with the most astonishing success. The facilities of cure are sure that patients can be cured at homes, in any part of the country, from accurate descriptions of their case, by letter; and have the medicines sent by Mail or express. Printed Interrogatories will be forwarded on application.

Consumption, catarrh and diseases of the throat cured as well at the home of the patients as at the Institution, by sending the cold medicated INHALING BALSAMIC VAPORS, with inhaler and ample directions for their use, and direct correspondence.

Patients applying for Interrogatives or advice, must enclose return stamps, to meet attention.

The attending physician will be found at the Institution for consultation, from 9 a. m. to 9 p. m., each day. Sunday in the forenoon. Address

BLOOD PURIFIER

and

BLOOD PILLS

have been introduced to the public for more than six years, and have acquired an

Immense Popularity,

far exceeding any Family Medicines of a similar nature in the market.

An appreciating public was not long in discovering they possessed remarkable

Curative Properties,

and hence their

Rapid Sale

and consequent profit to the Proprietor, thus enabling him to expend

Many Thousands

of dollars each year in advertising their merits, and publishing the

Numerous Certificates

which have been showered upon him from

All parts of the Country.

The peculiarity of the

Blood Purifier and Pills

is that they strike at the root of Disease, by eradicating every particle of impurity

In the Blood,

for the life and health of the body depends upon the purity of the blood

If the blood is poisoned, the body drags out a miserable existence. These medicines

Are Unequaled

for curing

Scrofula,	*Syphilis,*
Skin Diseases,	*Old Sores,*
Salt Rheum,	*Rheumatism,*
Dyspepsia,	*Sick Headache,*
Liver Complaint,	*Fever and Ague,*
Leucorrhœa,	*Female Complaints,*
Erysipelas,	*St. Anthony's Fire,*
Tumors,	*Eruptions,*
Fits, Scrofulous Consumption, etc.	

ONE person writes, her daughter was cured of fits of nine years' standing, and St Vitus' dance of two years.

ANOTHER writes, his son was cured after his flesh had almost wasted away. The doctors pronounced the case incurable.

ANOTHER was cured of Fever and Ague after trying every medicine in his reach.

ANOTHER was cured of Fever Sore which had existed fourteen years.

ANOTHER of Rheumatism of eight years.

Cases innumerable of Dyspepsia and Liver Complaint could be mentioned in which the Purifier and Pills

Work like a Charm.

The Blood Pills

are the most active and thorough pills that have ever been introduced.

They act so directly upon the Liver, exciting that organ to such an extent as that the system does not relapse into its former condition, which is too apt to be the case with simply a purgative pill.

They are really a

Blood and Liver Pill,

which, in conjunction with the

Blood Purifier,

will cure all the aforementioned diseases, and, of themselves, will relieve and cure

Headache, Costiveness, Colic Tums, Cholera Morbus, Indigestion, Pain in the Bowels, Dysentery, etc.

Try these medicines, and you will never regret it.

Ask your neighbors, who have used them, and they will say they are

Good Medicines,

and you should try them before going for a physician.
